MADiE 1.2.4 Release Notes

The following updates are included in the MADiE 1.2.4 release:

Category	Feature Description
Measure Creation	The "Create Version" popup screen has been updated to provide additional information to assist users in verifying the version number of the measure after the measure is versioned. The popup screen will now also display: • The current version number of the measure • The new version number of the measure based on the type of version the user selects from the dropdown on the "Create Version" popup screen (MAJOR, MINOR, or PATCH) will display. Users will be required to type the new version number into a "Confirm New Version #" field to verify the new version number for the measure.
Measure Creation	MADiE has been updated to send an email to the user attempting to transfer a measure from MAT to MADiE. The email notifies the user if the measure transferred successfully or if the measure failed to transfer. An error message will display if the measure transfer fails.
Measure Creation	**QDM Measures:** The following updates have been made: • On the Details tab, the Endorsing Organization dropdown was updated from "NQF" to "CMS Consensus Based Entity". (BONNIEMAT-1707) • On the Population Criteria tab, Reporting subtab, an additional option has been added to the Improvement Notation dropdown called "Other" which allows a user to enter a description of the Improvement Notation. (BONNIEMAT-1708)
Test Case Creation	**QDM Measures:** When users add a diagnosis attribute on an encounter, the "Present on Admission" and "Rank" fields are now optional (BONNIEMAT-1710)

Test Case Execution	**QDM Measures:** The following updates have been made:
	• Users now have the ability to execute test cases for measures with measure observations and stratifications.
	• The Test Cases tab now displays results for the Test Cases Coverage Indicator, including Coverage highlighting.
	• Logic calculation highlighting now displays on the edit test case screen Highlighting tab. This includes:
	    o Green and/or red highlighting to indicate pass/fail
	    o Logic calculation expanded results (BONNIEMAT-1553)
